## Experience

### Freelance Brand Identity & Product Designer — Nigeria

January 2024 – Present

- Develop brand identities and visual systems for startups, growing businesses, and emerging ventures, translating business positioning into clear and consistent visual identities.
- Design web and mobile experiences that extend brand identities into digital products through user flows, wireframes, high-fidelity interfaces, prototypes, and design systems.
- Work across discovery, ideation, visual development, presentation, feedback, and refinement while maintaining clear design rationale and organised files.
- Collaborate with clients and stakeholders to understand requirements, communicate design decisions, and deliver practical design solutions.

## Selected Projects

### PRODUCT DESIGN

### DynaRaise — Fundraising Mobile App

**Product Design / UI/UX** · Pitching Project

- Designed a mobile fundraising experience covering campaign discovery, campaign details, donation, payment, fundraising, verification, activity, notifications, and account experiences.
- Defined key user flows and information architecture, then developed a consistent UI system and high-fidelity prototypes in Figma.

### Alam Eats — Food Ordering Mobile App

**Product Design / UI/UX**

- Designed an end-to-end food-ordering experience covering restaurant discovery, menus, food customisation, cart, payment, order confirmation, tracking, history, ratings, and account management.
- Developed high-fidelity mobile interfaces and interaction patterns focused on making the ordering journey clear, convenient, and easy to navigate.

## BRAND IDENTITY DESIGN

### IVote — Digital Voting System

**Brand Identity**

- Developed the visual identity and digital design direction for a voting-system concept, translating its product purpose into a clear and trustworthy visual language.
- Created supporting visual assets for digital product touchpoints with emphasis on clarity, accessibility, and consistency.

### Cellowatt Solar Solutions — Brand Development

**August 2026**

- Developed the brand direction and visual identity for a solar energy consultation and installation company.
- Defined the visual system, messaging direction, digital presence, and supporting brand applications.

### Amaan Boredrilling & Geotechnical Services — Brand Development

**March 2026**

- Developed the brand identity and visual direction for a technical engineering services company.
- Established foundational brand assets and communication materials to strengthen its professional market presence.

### ShopMaxxi — Rebranding

**December 2025**

- Led the rebranding of an e-commerce and delivery-focused business based in Ota.
- Developed the brand direction, visual identity, colour system, typography, and supporting applications for a more consistent customer-facing presence.

## Web Design

### Elane — Luxury Womenswear

**Web Design**

- Designed an editorial-inspired website for a contemporary womenswear brand positioned around quiet luxury and modern Lagos fashion.
- Structured the experience around brand storytelling and collection discovery, using spacious layouts, restrained typography, warm neutral tones, and strong imagery.

### Form/01 — Architecture & Design Studio

**Web Design**

- Designed a contemporary website for an architecture studio focused on residential, cultural, and hospitality spaces.
- Developed the visual direction and page structure around architectural imagery, strong typography, spatial composition, selected work, studio information, and contact pathways.

## Tools

**Design:** Figma · FigJam · Adobe Creative Tools
